### Gourmet London Fog Latte Recipe

Fill the Milk Frother with cold milk to the MAX mark. Set the plunger in place and pump up and down until the volume of the milk doubles. Remove the plunger and warm the milk in the microwave for 20 seconds.

Add 1 Teaspoon of the London Fog Latte mix to the 2-cup Northbank Tea Press (use any tea press or a Brewit). Steep for 20 seconds (the longer you steep the more bitter the taste) and press the plunger down. Pour the latte into a mug and top up with the frothed milk. Add sugar as needed and enjoy!
